SUMMARY

I have a grounded knowledge and experience for building a functional, scalable and efficient web application that satisfies the need of the end-user with the core web development tools.

TOOLS & TECHNOLOGIES

- Node.js
- Express
- React
- Javascript
- MongoDB
- MySQL
- Firebase
- Git
- REST API
- GraphQL
- Prisma
- Docker
- Typescript
- Bootstrap
- HTML/CSS

WORK EXPERIENCE

Software Developer

02/2021 – Ongoing

BlueTag Technologies

- Designed an application using a REST API architecture developing a robust database.
- Managed fast-paced software delivery model from within a complex development ecosystem.
- Enhanced applications and improved performance using testing and validation against requirements.
- Coordinated concepts, libraries and style guides for the development team.

Software Developer Intern

09/2020 – 01/2021

BlueTag Technologies

- Refactored the backend codebase to use the MVC (model, views and controllers) file structure.
- Built React components and fetched the backend REST API endpoints using Axios.
- Used chrome developer tool for debugging.

PROJECTS

Title: Butiq

butiq.netlify.app

- An interactive e-commerce web application for businesses to scale and run higher margins for better cashflow.
- Utilized Node.js, Express, MongoDB, React, Redux/Toolkit, Heroku, Stripe.

Title: Expensify

nnv-expensify-app.herokuapp.com

- This is an application which enables a user keep track and manage their expenses.
- Utilized React, Firebase, Heroku, Git, Webpack, HTML, CSS.
